

EW-K13022DH

2-Port Dual Monitor DVI/ HDMI USB Cable KVM Switch w/ Audio & Mic EW-K13022DH

Unique Dual Monitor Cable KVM Switch

The UDVTA4 is a compact DVI/ HDMI USB "Cable KVM Switch", with 2 sets of fixed DVI/ HDMI USB KVM & Audio / Mic combo cables and a wired Quick Switch button for easy connection to four computers. It allows access to control, boot and reboot two USB-enable multimedia computers with only one USB keyboard, mouse, display, a speaker set and microphone. For easy and fast switching between computers, you can use the Quick Switch button, or keyboard hotkeys! The compact EW-K13022DH all-in-one design makes it ideal for multiplatform desktop applications that require high resolution video and sound.

Quick Switch button for instant switching operation

The Quick Switch button can be conveniently placed near your hand on the desktop. Whenever you need to switch computer channel, you can press it lightly for instant switching to the other computer. It is the most easy and fastest way to switch. The Quick Switch button is lightweight which can be easily placed to any spot you like. Beside the Quick Switch button, you can also use the keyboard hotkeys and software switching utility.

USB 2.0 hub ports compliant for USB keyboard, mouse and high-speed device sharing

The USB 2.0 interface offers multi-platform support for PC and Macintosh. The USB keyboard and mouse ports are actually transparent USB hub ports that feature a full driver support for advanced keyboard / mouse functionalities. In addition to the usual connections of a set of USB keyboard and mouse, the 2 x USB 2.0 device ports can also be connected to high-speed USB devices such as USB disk storage or webcam, etc.

DVI interface technology to ensure digitally crisp and clean imaging

The DVI interface technology is tailored to modern digital Flat Panel Display. It implements genuinely digital signal transmission over the cable to reduce undesired distortion from conventional analog / digital conversion. This DVI USB KVM Switch supports digital video (1920 x 1200) for your maximum convenience in adapting to your display requirements.

Audio and Microphone Switching offers uninterrupted multimedia experience

The audio and microphone switching function of UDVTA4 allows you to leverage the multimedia systems on four connected computers. You can monitor Audio / Mic input & output of each computer

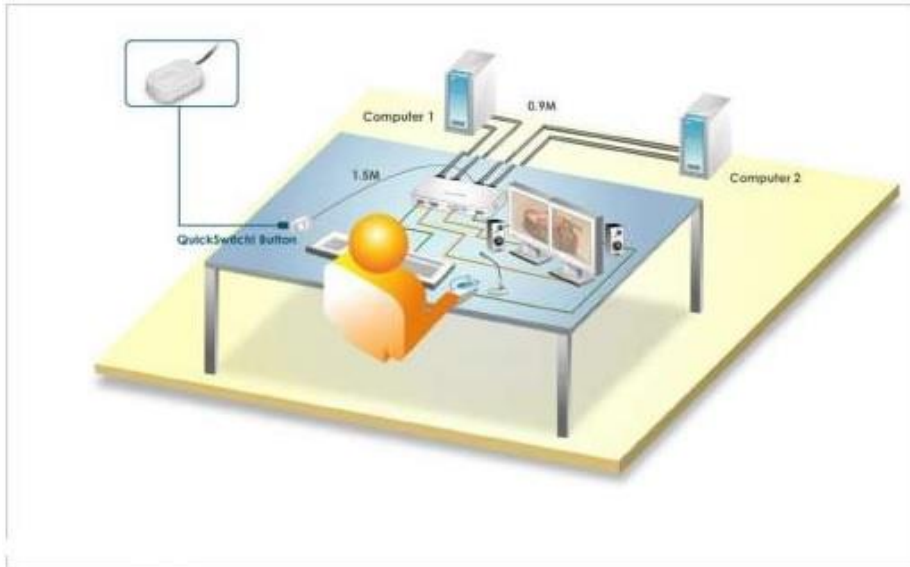

without plugging cables on and off. User can also choose to use either independent / simultaneous switching of both PC channel and audio / microphone channel for their maximum convenience. And it takes only one set of speaker and microphone instead of one set for each computer. Furthermore, it offers you a user-programmable simultaneous / independent switching option between PC and Audio / Mic channel switching.

Zero Cabling Hassles for KVM users

This Cable KVM Switch saves you cabling troubles with its 4 x fixed DVI USB KVM Audio / Mic combo cables. In fact, you will have zero cabling troubles since you don't have to worry about finding suitable cables to fit--It's already fixed!

Features

- 1 x fixed wired (1.5M) Quick Switch button for instant toggling between two computers
- 2 x fixed DVI/ HDMI USB KVM / Audio / Mic combo cables
- USB 2.0 hub ports for keyboard, mouse or other high-speed USB devices
- DVI Single Link / HDMI Digital Video up to 1920 x 1200 / 1080P resolution
- Hot-plugging PCs for maintenance without powering down the KVM switching or PCs
- Multi-platform support for Windows, Sun, and Mac
- 2 modes of channel selection-either by Quick switch button, or Keyboard hotkeys
- LED indicators for easy status monitoring
